Ego Wi-Fi Smart Socket

Appliance Control and Monitoring

DESCRIPTION

Ego Wi-Fi Smart Socket is unique socket that will make your life that bit easier. It comes with a fantastic App that allows you to program appliances, remotely switch them on and off and unlike many others, it also monitor how much energy the appliance is using.

KEY FEATURES

- ✓ Easy to install and programme
- ✓ View instant power and cost through rich interface on iPhone and Android App
- ✓ Monitor simultaneously unlimited number of appliances
- ✓ Access your energy data anytime, from anywhere
- ✓ View your historical costs of running appliances in easy-to-read graphics
- ✓ Control appliances remotely
- ✓ Program timers for automatic switching of devices
- ✓ Save money by eliminating standby consumption of appliances

SETUP COULDN'T BE EASIER!

We've designed the **ego** to be quick and easy to install so you can start to monitor and control in a few minutes.

1
Download and install the free 'Efergy ego' app

2
Plug in your ego and pair it with your smartphone

3
Connect your appliances monitor and control them
